Success breeds success

Wairere Allrounder Romney Proven Predictable Profitable

6,000 SIL recorded Wairere Romneys have been the core of our breeding program for many decades. Apart from our terminal Dominator flock and purebred Nudies, we incorporate all the winning traits of Wairere Romneys into our Challengers and other breed mixes.

Wairere two tooth sires, January 2024.

Wairere Composite Now with 1/4 Nudie to add to hybrid vigour/bareness

The Wairere composite, 1/4 Nudie 3/8 Texel/Finn/East Friesian 3/8 Romney...bred for minimal dagging, shearing once per year, power packed for growth.

Wairere Challenger (FE resilient. Sires tested at 0.6 sporidesmin.) Resilience plus performance

Facial eczema resilience combined with the renowned Wairere Romney for all of the benefits of hogget performance, high lambing percentage and extra weaning weight, The Wairere Challenger is becoming increasingly popular.

Wairere Nudie No wool No shearing No shedding

This year the Wairere team has implanted 620 Nudie embryos from the UK, and inseminated 900 Romney ewes with semen from Ireland, Scotland and England. By 2026 the Wairere Nudie flock will number around 600 purebred ewes and hoggets, and 2,000 part Nudies ranging from 7/8 to 3/4 (Brazilians) to 1/2 (Streakers). Farming sheep like miniature cattle is a major reduction in workload and costs, and perhaps capital too? Can you free up a shepherd's house for sale or rent? Will a move to Nudies give you more family time?

A meaty Nudie two tooth ram.

A Nudie ewe with triplets around 60 days old.

Wairere Dominator (Composite terminal)

Meating the market

The Wairere Dominator has been developed since 2003 by combining the best of New Zealand's terminal breeds to create a composite terminal. Important attributes required by our clients are high survival of lambs at birth, strong constitution, good longevity, sound feet and and a black face for easy identification.
